# ASHISH RAHI

Kanpur, Uttar Pradesh, India

📞 9889157407   ✉ ashishrahi05@gmail.com   in linkedin.com/in/ashish-rahi   ○ github.com/ashishrahi

## Education

**Northern India Engineering College**

*Bachelor of Technology in Information Technology*                                                  *Lucknow, Uttar Pradesh*

### Relevant Coursework

- Data Structures
- System Design
- Programming Languages
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

## Experience

**E-Salahkar Company**                                                                              **Dec 2023 – Aug 2024**

*Backend Web Development Intern*                                                                    *Kanpur, Uttar Pradesh*

- Developed a dashboard to perform various operations with business logic, aiding in business development and database management to identify and resolve bugs/issues.
- Created scripts using ReactJS and ExpressJS with MongoDB to aggregate results into an organized format, facilitating daily testing by loading the latest build code onto the framework.
- Implemented a continuous integration service to automate the process of loading the latest build code and test files, running tests, and generating daily reports of the results.

## Projects

**Portfolio Website** | *HTML, CSS, Vanilla JavaScript*                                              **Feb 2024**

- Designed and developed a responsive portfolio web app to showcase various projects, resulting in a 50% increase in profile visits within the first month of launch.
- The project is hosted on Vercel: Portfolio Link.

**E-Commerce Management Dashboard** | *ReactJS, ReactQuery, Redux Toolkit*                           **March 2024**

- Developed a comprehensive admin panel for a jewelry shop, digitizing operations and improving efficiency by 30% through automation of key functionalities.
- Leveraged ReactJS for a dynamic frontend, ReactQuery for seamless data fetching, and Redux Toolkit for optimized state management, reducing page load times by 40%.
- Implemented user management features for clients, vendors, and artisans, facilitating a streamlined order processing system that decreased order fulfillment time by 25%.

**E-commerce API** | *ExpressJS, Redis, MongoDB*                                                     **July 2024**

- Engineered robust RESTful APIs for the admin panel and mobile application, improving data retrieval speeds by 50% through efficient querying and caching.
- Utilized ExpressJS for backend development, MongoDB for database management, and Redis for efficient caching, resulting in a 70% reduction in server response times.

## Technical Skills

**Languages**: HTML, CSS, JavaScript, TypeScript, SQL
**Frameworks**: ReactJS, Node.js, Express.js
**Databases**: MongoDB, MySQL
**Tools & Technologies**: Git, Docker, Redux Toolkit, RabbitMQ, Redis

## Volunteer Experience

*Open Source Contributor*                                                                           *GitHub*

Contributed to various open-source projects, improving existing features and fixing bugs.

*Technical Mentor*                                                                                  *Local Coding Bootcamp*

Provided guidance and mentorship to aspiring developers, assisting with project development and coding challenges.
